SCREENING

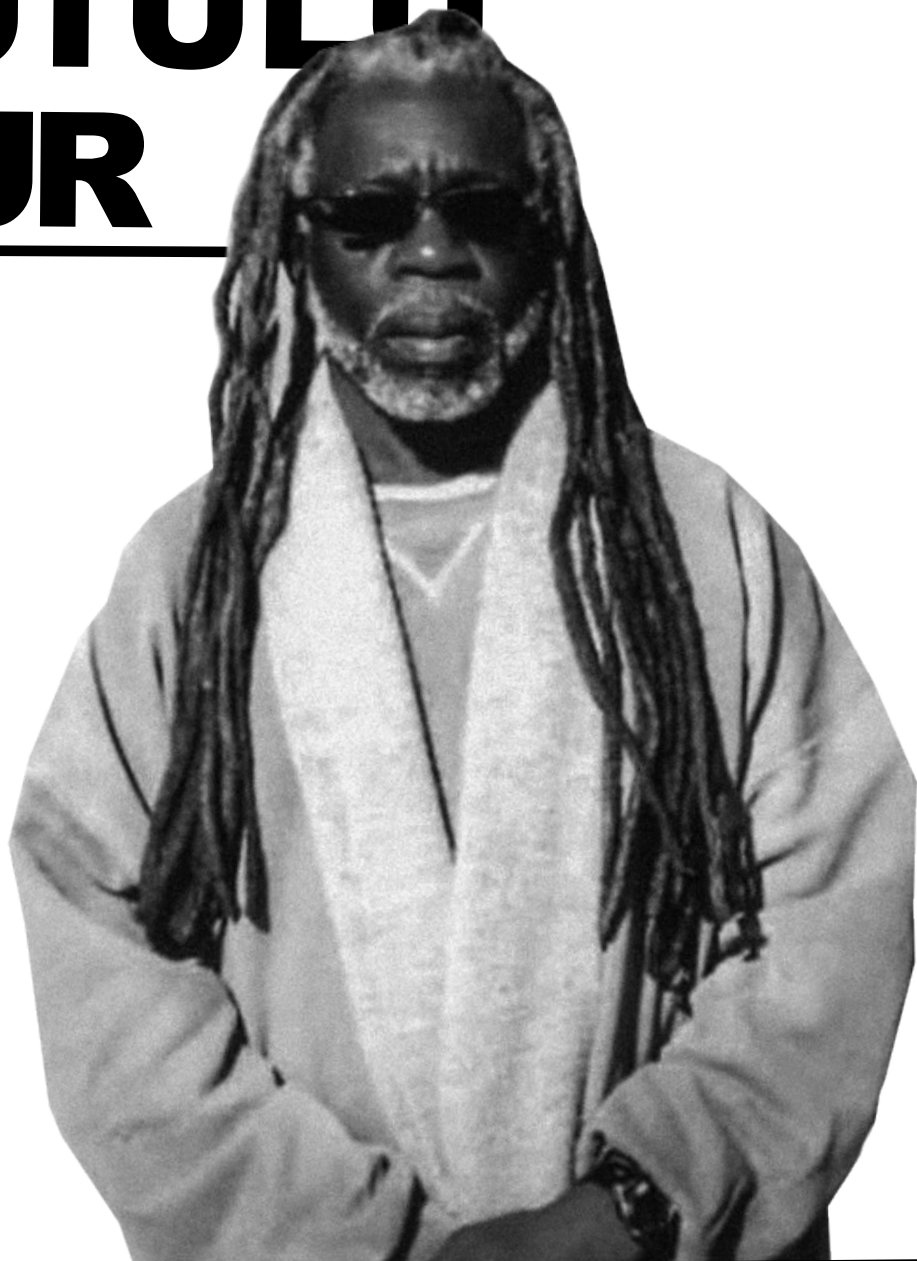

# DR. MUTULU SHAKUR

---

#FREEDOMFORMUTULU

---

**Dr. Mutulu Shakur** is an acupuncturist, a freedom fighter, and key contributor to the history of community acupuncture in the US. He is the former director of the Lincoln Detox Hospital where he played a fundamental role in the creation of the NADA protocol.

Dr. Shakur spent 36 years as a political prisoner. He was granted release last December because of his stage 4 cancer diagnosis.

# NADA PROTOCOL

Developed in the 1970s at Lincoln Detox (Bronx, NY), the **National Acupuncture Detoxification Association** (NADA) protocol was originally used as a supportive component in drug and alcohol treatment settings.

The 3-5 point auricular acupuncture formula eased the effects of chronic stress, chronic pain, and withdrawal.

NADA was established as a North American organization to expand training capacity and awareness of the value of acupuncture as a tool of recovery.

*The Black Panthers became really interested in acupuncture and sent a couple of representatives to China to learn about it. They brought it back and incorporated acupuncture into their community processes in the Bronx. It was a rejection of white people's medicine. Ear acupuncture works for addiction withdrawal symptoms, and was something the Panthers discovered. Now it's become a regular treatment for certain kinds of addiction withdrawal.*
